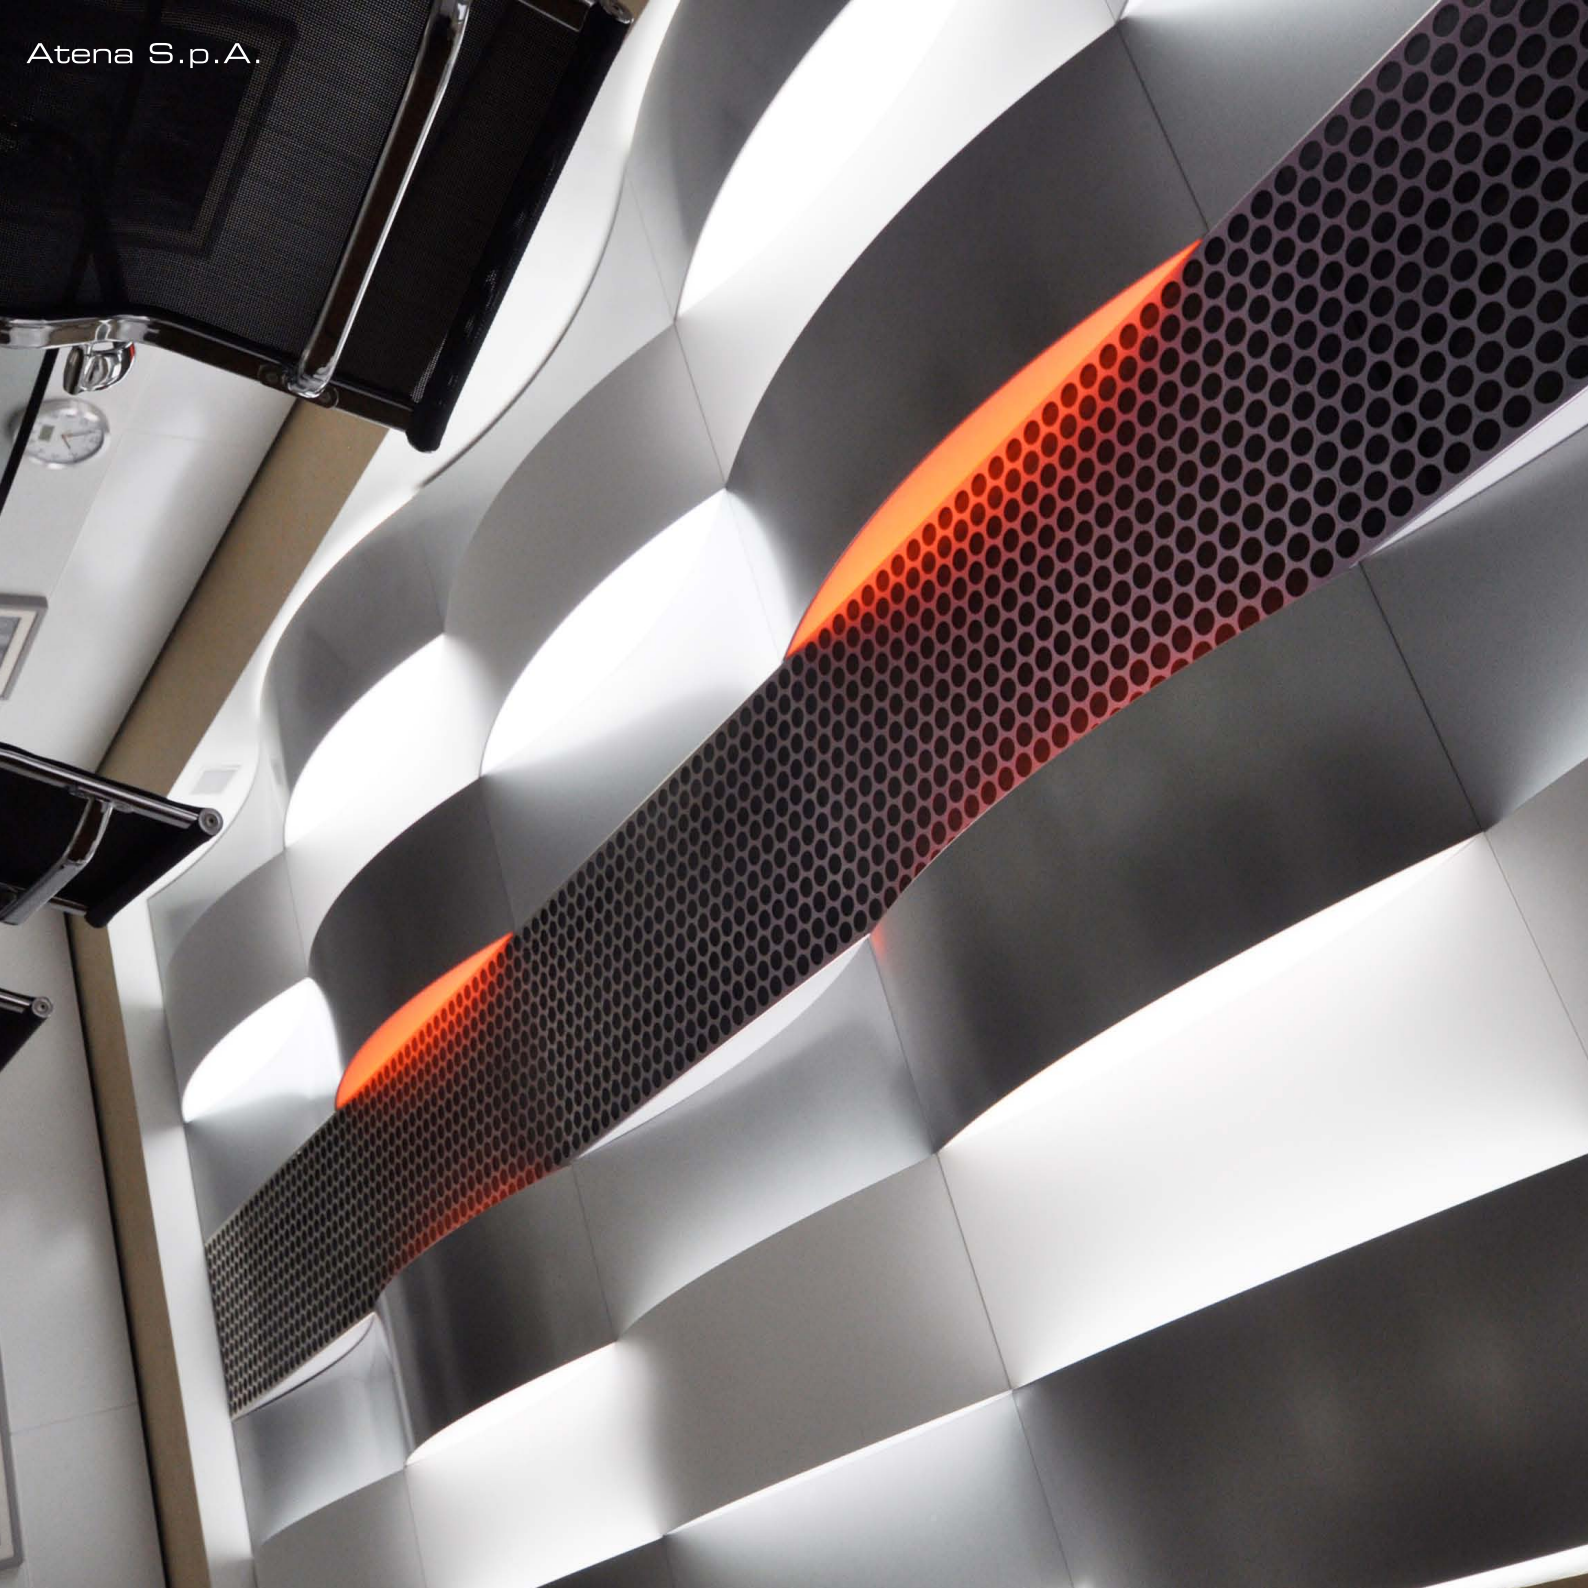
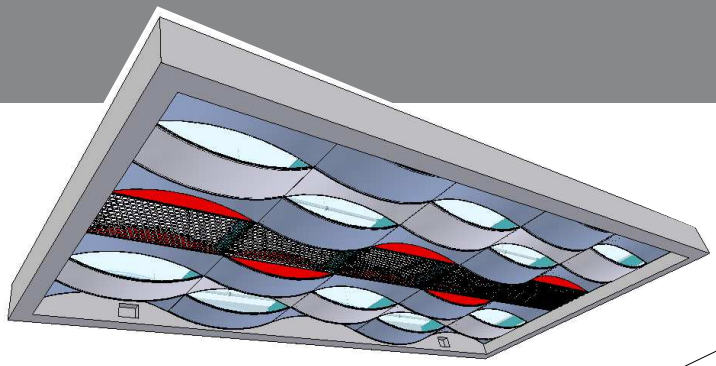
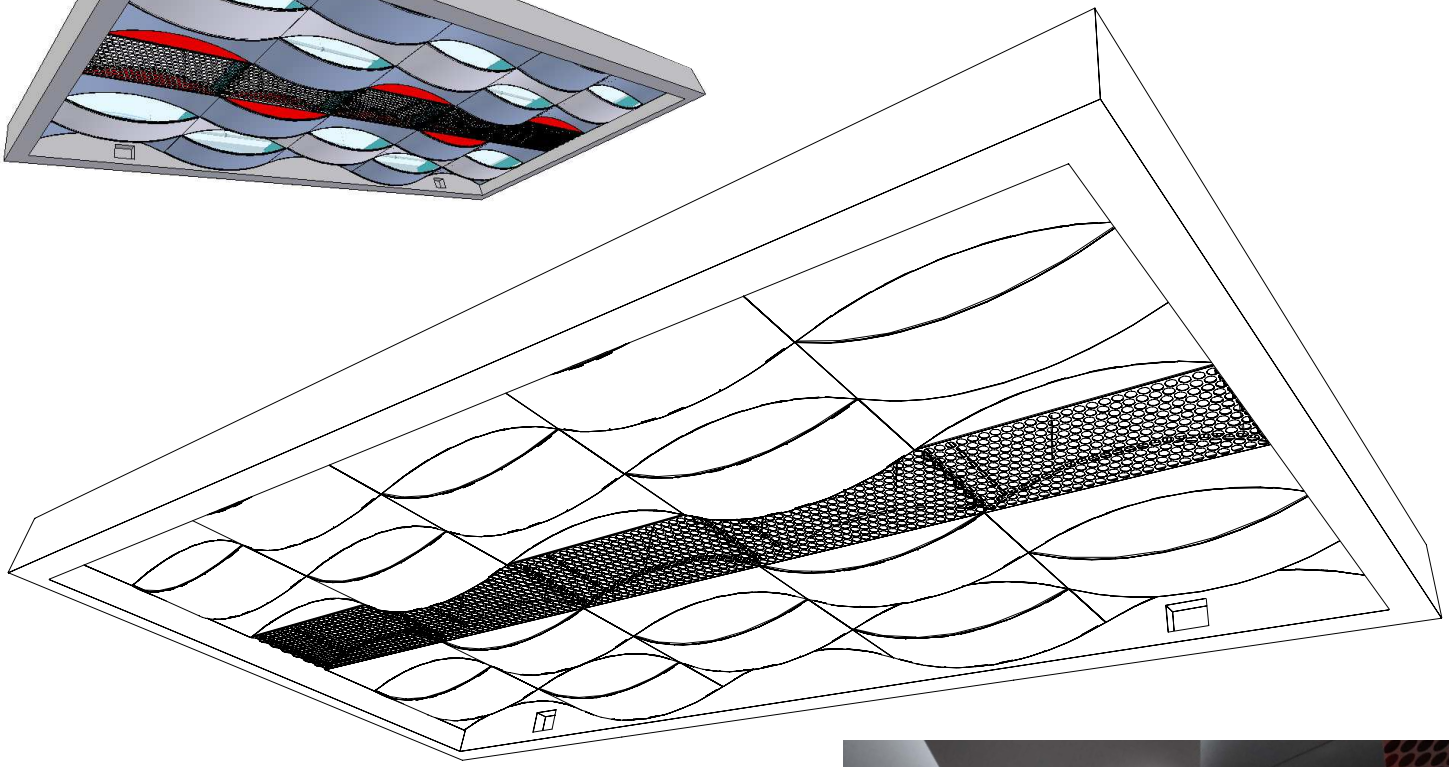
CONTROSOFFITTI E RIVESTIMENTI METALLICI

Atena S.p.A.



SILVER SEA





Controsoffitto realizzato con pannellature in alluminio calandrato postverniciato e pannelli centrali piani forati a laser.

Retrostruttura nascosta modello Zeta System di Atena realizzata con profili Z appositamente pressopiegati in funzione del raggio di curvatura dei pannelli concavi.

Sistema di irrigidimento dei pannelli con centine interne. Opalini satinati bianchi e rossi per la diffusione della luce. Illuminazione strip led.

Suspended ceiling made up of curvy shaped aluminum tiles and flat perforated panels placed in the middle.

Atena Zeta System hidden structure realized with special bended Z profiles according to convex tiles radius.

Internal ribs are used to stiff the curved tiles. LED strip lighting with white and red satin opal polycarbonate.
